

Introducing “a Wink and a Nod” Collection and “Janie Belle.”

The concept for “a Wink and a Nod” collection was sparked by frequent conversations and our favorite vintage patterns—designs our mothers and grandmothers may have used when we were children. We have taken the charming, wearable, simple designs of children’s patterns published in the 1940s and 50s, updated them to modern construction techniques using today’s swell sewing machines, resized them to current standards, and added some of our own design ideas. Our logo tag line says it all - “**The classics of yesteryear, back in full swing!**”

We are proud to offer you the second pattern in our series - a Wink and a Nod’s “Janie Belle.” The Janie Belle Jumper is an essential piece for every girl’s weekday wardrobe. This versatile, easy-to-wear jumper offers a comfortable fit, squared front and back necklines, a swingy flared skirt, and convenient (optional) patch pockets. Janie Belle is guaranteed to become a favorite closet staple. Suitable for variety of fabrications and trims. Diagramed instruction sheets accompany the pattern to ensure ease of construction.
